Dear MJSD Families,

We are excited to announce that the Menasha Joint School District has partnered with Schoology, an integrated learning management solution that provides course management, mobile learning, and support for system-wide communication. Schoology enables students, parents, and teachers to engage with learning materials and their school community from the classroom as well as in a virtual learning environment. We look forward to using Schoology in our face-to-face, blended, and virtual classrooms beginning with the 2020-2021 school year to enhance connectivity and communication across our entire district.

With Schoology, students can digitally submit homework assignments, review grades, participate in interactive discussions, receive announcements and feedback, take tests, write academic blogs, and more. As a parent, you will be able to view your child's activity within the platform as well as monitor academic progress. You and your child will be given login credentials during the first week of school to access the MJSD Schoology system. Student progress and activity will be monitored by teachers to ensure a safe, secure, and controlled environment. Linked below, you will find more information about Schoology and what to expect as you and your student begin to use this learning management system. Please look for more information regarding your login credentials and how to login during the first week of school. Below are links to get you familiar with Schoology.

What is Schoology?

Schoology is the education technology company putting collaboration at the heart of the learning experience. Its easy-to-use learning management system (LMS) connects the people, content, and systems that fuel education. Millions of students, faculty, and administrators from over 60,000 K-12 schools and universities worldwide use Schoology to shape learning experiences and improve student outcomes.

Why did the Menasha Joint School District choose Schoology?

For the District: Transform Education Past Its Brick-and-Mortar Roots

- Creating a hub for learning that allows for high student engagement, standards-based instruction, and the acceleration of student learning
- Securing all district curriculum materials in a space that requires authentication
- Centralizing all materials for more efficient leadership meetings
- Allowing for real-time collaboration between leadership and support staff via discussions, videos, book studies, and more inside the platform

For Teachers: Enhancing MJSD Instructional Delivery Practices

- Centralizing the curriculum and instructional materials
- Simplifying collaboration among teachers and instructional staff
- Providing tools that increase student engagement and acceleration
- Real-time communication between teachers and students

For Students: Prepare Students to Succeed in the 21st century

- Preparing students for the world of work and/or college once they leave the district
- Allowing students to access classroom materials 24/7 so learning can take place anywhere, anytime
- Allowing students who are in extracurricular activities and absent access to their coursework so they don't fall behind

For Parents: Know What Students Are Learning

- Providing parents a more in-depth experience about what students are learning in classrooms
 - Talking to teachers whenever they have a question rather than having to stop by the school
-
