

ThedaCare™

Orthopedic Care

Dear Parent/Guardian,

Your team or sports organization is currently utilizing an innovative program for evaluating and treating head injuries (e.g., concussion). In order to better manage concussions sustained by your student-athletes, your team or sports organization has partnered with ThedaCare Orthopedic Care to use a software tool called ImPACT™ (Immediate Post Concussion Assessment and Cognitive Testing). Headquartered in Pittsburgh, PA, ImPACT™ is a leader in computerized neurocognitive assessment tools and services. ImPACT™ has created an international network of clients who utilize the company's proprietary concussion management program. Neurocognitive tests such as ImPACT™ are fast becoming the "gold standard" in recognizing and managing head injuries. Additional information about ImPACT™ can be found at www.impacttest.com.

Your team or sports organization is asking student athletes to take the computerized exam before beginning contact sport practice or competition. This test is set up in "video-game" type format and takes about 20-25 minutes to complete. The ImPACT™ test is a pre-season physical of the brain. It tracks information such as memory, reaction time, speed, and concentration, but it is not an IQ test. The ImPACT™ test is non-invasive and poses no risks to your child.

If your child suffers a head injury and a concussion is suspected, your child will be referred to a physician or clinician for evaluation. The physician or clinician may recommend that your child take the post-injury ImPACT™ test. The health care organization will maintain your child's pre-season and post-injury test data, if any, on a secure server maintained by ImPACT™. Your child's test data will only be available to that health care organization, except as described below. If your child suffers a head injury, you will be contacted with additional details about how to proceed.

Your child's test data may be made available to persons other than the physician or clinician evaluating your child, as follows

- You child's pre-season ImPACT™ Baseline test may be transferred to the organization that is providing care to your son/daughter so that it can be utilized as part of their post-concussion care.
- The physician or clinician evaluating your child may choose to make your child's test data available to other health care providers who are being consulted regarding the treatment of your child.

Your child's health and safety are at the forefront of the student athletic experience, and we are excited to utilize this program.

If you have any further questions regarding this program please feel free to contact the provider testing your child.

Sincerely,
ThedaCare Orthopedic Care

PERMISSION SLIP

For use of the Immediate Post-Concussion Assessment and Cognitive Testing (ImPACT™)

I have read and understood the above information and give permission for my son/daughter to take the ImPACT™ Baseline Concussion Test.
